& Social Services

Namibia Demographic and Health Survey 2013

The Ministry of Health and Social Services has launched the **Namibia Demographic and Health Survey 2013 Report**. The survey was conducted in 2013 to provide information from urban and rural areas in all 13 regions of the country.

The Report provides the following statistics

- o Fertility indicators
- o Childhood and adult mortality
- o Data on HIV related information
- o Orphans and vulnerable children
- o Prevalence for Anaemia
- o Prevalence for Diabetes
- o Statistics on High Blood Pressure
- o Nutritional status of women, men and children
- o Information on Domestic Violence

**An electronic report can be obtained on the Ministry website
